INFO@SKEWNET.COM**

I was born 30 January, 1984 in Berlin, Germany and finished the school with the high school diploma in 2004.

With 17 I began to realize my addiction for drawing and painting and on year after I joined a creative decoration team. In the freetime of my schooldays we constructed figures of filaments, wood and painted drapery. In 2004 I started studying Communication Design at the Design Akademie Berlin and finished succesfully with a diploma in 2008.

My diploma was book design with the topic of illustrated Art Fairy-Tales.

During my study I collected direct practical experiences in my occupation at SelectNY, a classical advertising agency in Berlin. There, I worked as a graphic designer in a practical course for six month. One year later I participated in a honorary academic project, which promotes Berlin's music culture. In cooperation with the team I developed the Corporate Design and adopted it on all graphic media.
